

Succession Planning

Perennial Beds

| Early Season (Mar- May) | |
|--------------------------|-------------------|
| Feverfew | Hesperis |
| Lupin | Achillea |
| Astrantia | Sweet Williams |
| Clary Sage | Alchemilla Mollis |

| Mid Season (June- Aug) | |
|------------------------|-------------------|
| Feverfew | Hesperis |
| Lupin | Achillea |
| Astrantia | Sweet Williams |
| Clary Sage | Alchemilla Mollis |

| Later Season (Sep- Nov) | |
|-------------------------|-------------------|
| Feverfew | Hesperis |
| Lupin | Achillea |
| Astrantia | Sweet Williams |
| Clary Sage | Alchemilla Mollis |

Plants in these beds would stay in all year round, and rejuvenated every few years as necessary. These plants are all cut and come again, providing an almost continuous supply of blooms through the summer until exhausted.

Hardy annual/
Annual Beds

| Early Season (Mar- May) | |
|--------------------------|--------------------------|
| Foxglove | Sweetpeas |
| Daucus Carota | Antirrhinum (Snapdragon) |

| Mid Season (June- Aug) | |
|------------------------|--------------------------|
| Foxglove | Sweetpeas |
| Daucus Carota | Antirrhinum (Snapdragon) |

| Later Season (Sep- Nov) | |
|-------------------------|--|
| Phacelia | |

Early to mid season crops would take up space for most of the year and only be replaced with a cover crop at the end of the season once exhausted.

Bulbs/ Coorms & Annuals Beds

| Early Season (Mar- May) | |
|------------------------------------|------------------------------|
| Tulips | Ranunculus |
| Matthiola Incana(Stocks) | Anemones |
| Papaver Nudicale (Icelandic Poppy) | Orlaya Grandiflora |
| Larkspur | Cerithe |
| Poppies (Autumn Sow Direct) | Phacelia |
| Cornflower | Nigella (Autumn Sow Direct) |

| Mid Season (June- Aug) | |
|-----------------------------|--------------------------|
| Crysanthemums | Dahlias |
| Callistephus (China Aster) | Antirrhinum (Snapdragon) |
| Cosmos | Zinnia |
| Salvia | Didiscus Lace |
| Ammi Majus | Celosia |
| Sweetpeas | Cornflower |

| Later Season (Sep- Nov) | |
|-----------------------------|--------------------------|
| Crysanthemums | Dahlias |
| Callistephus (China Aster) | Antirrhinum (Snapdragon) |
| Cosmos | Zinnia |
| Salvia | Didiscus Lace |
| Ammi Majus | Celosia |
| Sweetpeas | Cornflower |

Early season crops would be replaced by mid season crops which would stay in the ground until the end of the season as these are all cut and come again to will provide an almost continuous supply of blooms

Quick cropping Beds

| Early Season (Apr- May) | |
|--------------------------|--------------------------|
| Poppies(Direct Sow) | Cornflower (Direct Sow) |
| Phacelia (Direct Sow) | Nigella (Direct Sow) |
| Cerithe (Direct Sow) | Orlaya Grandiflora |
| Larkspur | Borage (Direct Sow) |

| Mid Season (Jun- Jul) | |
|-----------------------|------------|
| Phacelia | Larkspur |
| Nigella (Direct Sow) | Borage |
| Cerithe | Cornflower |
| Calendula | Poppies |

| Later Season (Aug- Sep) | |
|-------------------------|------------------|
| Calendula | Matthiola Incana |
| Larkspur | Calendula |
| Phacelia | Poppies |
| Cornflower | Nigella |

For maximum yield flowers which either have very fast days to maturity or can be grown out in pots for a long time before planting out can be used alongside low tunnels for extra early season protection to achieve 3 crops per year
